

GROWING CLOUD NATIVE TOGETHER

KCD Monthly Organizer Digest

June 15, 2024

Congratulations to Islamabad, Bueno Aires, Dhaka, Istanbul, New York, Czech & Slovak, Zurich and Barcelona!

Congratulations to all teams that hosted KCDs in May and June so far! Four KCDs were inaugural events, and all in different regions.

We are excited for the next five KCDs happening the rest of June, and in July

- [KCD Italy](#) - June 20
- [KCD Hyderabad](#) - June 20
- [KCD Munich](#) - July 1-2
- [KCD Lima](#) - July 20

IMPORTANT UPDATE

KCD Updates So Far

We are still reviewing strategic reviews and tooling for the 2025 program. As it stands for the remainder of the year we are moving forward with reviewing and hopefully approving current 2024 requests. Any new 2024 requests will be forwarded to 2025.

[New terms](#) for those are in the beginning phases of KCD planning:

- To remain a community event, in-person KCDs should not exceed 500 attendees. This includes your sponsors, speakers and organizer tickets.
- While we already took into consideration that KCDs should not compete with one another, or any of the LF or CNCF-hosted summit-like events, we are now taking into account KubeCons. KCDs can no longer be within two months of KubeCon + CloudNativeCon in its region.

Any questions can be directed to kcd@cncf.io.

OPPORTUNITY

KubeCon Scholarships for KCDs

Speaking of KubeCon + CloudNativeCon - it is almost that time where we have nominations for Dan Kohn Scholarships for KCDs. This means 1 person is to be nominated from your team (if not already done for Paris), and submitted via a form I will send out this month. Nominations should be completed by September 1 and notifications will go out mid September.

Qualifications:

- Those who have never attended a KubeCon + CloudNativeCon
- Those who would not otherwise get sponsored by their company/organization

As always, thank you for your time and helping make Cloud Native ubiquitous.

Warm regards,

Audra Montenegro

CNCF Community Program Manager
